

TDOT Planning Manager

Office of Community Transportation Planning Manager – 1 Position

This is a position that manages land use and transportation planning efforts for TDOT in the Long Range Planning Division's Office of Community Transportation (OCT). Duties include oversight of the Community Transportation Planning Grant process, coordination with other TDOT program managers, Metropolitan and Rural Planning Organizations, and oversight of corridor management agreements. This position initiates and participates in regular collaborative opportunities with metropolitan transportation planning organizations, rural transportation consultation organizations, cities, counties, and other state agencies. This position requires frequent travel across the state to work closely with regional planning staff and communities/organizations they support. Metropolitan planning and management experience are required.
