

TDOT Environmental Studies Specialist - Advanced

NEPA – 2 Positions

This position will be responsible for compliance with the federal National Environmental Policy Act (NEPA) as it relates to transportation projects. The NEPA Law requires TDOT must comply with a vast array of regulations in order to use federal funding for its projects, including such areas as ecology, endangered species, air pollution, noise, hazardous materials, historic preservation, archaeology, and many other environmental regulations. This person is responsible for overseeing a large number of projects to ensure completeness and that the schedule is maintained, collecting and analyzing project related data, writing and reviewing NEPA documents, document distribution and storing/filing. Candidates with a good working knowledge of NEPA preparation as it related to transportation and environmental studies are highly desired.

Archaeology – 1 Position

This position will have Regional responsibilities as a TDOT staff archaeologist but will on occasion also be required to assist and instruct the other TDOT staff archaeologists in the performance of their project processing and delivery duties in the Archaeology Section of the Environmental Division. Consequently, he or she must have experience in a transportation agency, an advanced degree in Archaeology or Anthropology with a specialty in Archaeology or cultural resource management, working knowledge of the State's prehistory and history and have experience writing Section 106 agreement documents of moderate difficulty.
