

## Tennessee Department of Transportation I-24 Corridor Comment Form

The Tennessee Department of Transportation is conducting a study that will explore a range of solutions along the I-24 Corridor, which encompasses a 178-mile stretch of interstate from the Kentucky line to where it meets Interstate-75 in Hamilton County, Tennessee. Below is a map showing the I-24 Corridor.

The main goal of this study is to seek ways to better manage congestion, improve safety, maximize the potential for freight diversion and preserve/enhance the corridor's economic benefits. This study includes all modes of transportation.

Your input on the transportation needs and areas of concern for this corridor are important to the success of this study. Please take a moment to answer the questions in this comment form. When responding, make sure to include specific locations such as interchanges, mile markers or exit numbers.
