

TDOT Environmental Studies Specialist - Advanced

Historic Preservation – 1 Position

This TDOT Environmental Studies Specialist-Advanced position would be the lead worker within the Historic Preservation Section and would be responsible for interpreting and applying federal historic preservation laws as it pertains to transportation projects. The person must have a degree in history, historic preservation, or another historic preservation related field, and must have working knowledge of Tennessee's history and architectural history and have experience writing Section 106 documents including MOAs and Section 4(f) statements of some difficulty.
