

TRANS PROJ SPEC – SR

Under the management and guidance of TDOT's Engineering Bureau and Human Resources division, this position will be responsible for providing guidance and oversight for TDOT's Technical Training Program, and related Civil Engineering Online Master's Degree and Graduation Transportation Associate programs. Additionally, this position will implement and manage AASHTO's educational outreach programs (TRAC and RIDES), which are designed for use in Science, Technology, Engineering, and Math (STEM) classes. This position will ensure that an appropriate tracking and budget system are created so that TDOT can measure TDOT's return on investment and program effectiveness.

Due to the technical nature of these programs, it is essential that the person implementing them have a solid foundation of knowledge and educational background in Civil Engineering. This position will make recommendations regarding technical program requirements, curriculum development, and implementation.
