REMARKS:	<p>Philip and Clint,</p> <p>Attached are CADD files and Excel files for the next set of processed information. Chain Storm 8E and Storm 8F are new. All other points, "Storm" chains and profiles are the same as previous files submitted. Note that the letter "O" for points will not be used to prevent confusion with the number 0. Also, note that Storm 8F is a lateral that encounters a large drop into the junction box which the crawler cannot traverse. The SUE Chains.dgn has notes regarding inability to collect data in 2 locations due to one area being under the travel lane (area between Storm 7A and Storm 8B) and the drop in the structure adjacent to Storm 8F.</p> <p>Please let us know if you have any questions.</p> <p>Thank you.</p> <p>C.J. Tong, P.E. GRESHAM, SMITH AND PARTNERS <i>Architecture, Engineering, Interiors, Planning</i> Florida Cert. No. AAP000034 / CA3806 / IB26000797 / LC26000381 222 Second Avenue South, Suite 1400</p>
