REMARKS:	<p>Clint and Philip,</p> <p>Please find the links below to download video of the system we spoke about earlier this week. You will also find a PDF of all the reports of all video taken to date and a CADD file that has the pipe runs named according to the videos. We will continue to update the CADD file and send the updated file to you. Additionally, any PDF reports that are made will be sent along as they are made.</p> <p>Please note that some videos are named such that sections may appear to overlap or be excluded. This is due to things like video was stopped due to the need to end work before lane closure times expired or encountering structures that were not labeled on the survey. When we are able to determine this is the case, the CADD file has the name of the video in parenthesis and the actual run points below that (see (BA3 to BA2) and BA2A to BA2).</p> <p>Also, note that the run from BA1 to BA5 (videos I 440-BA 1-BA 5 Box-I 440.mpg and I 440-BA 1-BA 5 Box-I 4400.mpg) is CMP.</p> <p>The files for the videos are large. Please let us know if you have trouble downloading them.</p>
