Transportation Project Specialist Senior /Environmental Mitigation Specialist

TDOT Location

Location: Nashville, TN

Compensation: \$4,973-7,955/mo

Overview

The Tennessee Department of Transportation (TDOT) is currently hiring a full-time Transportation Project Specialist Senior for our headquarters Environmental Mitigation Office located in downtown Nashville, Davidson County.

The TDOT Environmental Mitigation Office is responsible for providing compensatory mitigation to offset stream and wetland impacts from transportation projects through a process referred to as compensatory mitigation. Compensatory mitigation methods include restoration or rehabilitation, establishment, enhancement, and/or preservation of wetlands, streams and other aquatic resources for the purposes of offsetting adverse stream and wetland impacts. Compensatory mitigation is required for certain TDOT transportation projects, as part of the environmental permitting process.

Responsibilities

Manage compensatory mitigation project development

Ensure mitigation design is consistent with TDOT standards

Manage project schedules; ensure deliverables are produced on time to meet project schedules

Supervise contractors and aid with design questions and standards

Ensure deliverables are produced on time to meet project schedules

Qualifications

Education and Experience: Education equivalent to graduation from an accredited college or university with a bachelor's degree in civil engineering and experience equivalent to five years of full-time professional civil engineering work that may include student assistant or college seasonal civil engineering work with the State of Tennessee.

OR

Possession of a master's degree in civil engineering from an accredited college or university and experience equivalent to four years of full-time professional civil engineering work.

Special skills, knowledge or experience required or desired

Knowledge of federal and state water quality permitting, stream and wetland delineation experience, experience with stream and wetland compensatory mitigation projects.
