TDOT Civil Engineering Manager 1 - Environmental Permits Section

TDOT Location: Nashville, TN

Overview

The Tennessee Department of Transportation (TDOT) is currently hiring a full-time Civil Engineering Manager 1 for our headquarters Environmental Engineering Office, Permit Section location in Davidson County.

The TDOT Environmental Engineering Office, Permits Section is responsible for reviewing TDOT project plans to ensure they meet all federal and state environmental rules and regulations. The Section works with the project designers to avoid and minimize impacts to environmental features (streams, reservoirs, springs, sinkholes, and wetlands). The Section then applies for water quality permits from state and federal regulatory agencies [Tennessee Department of Environment and Conservation (TDEC), U.S. Army Corps of Engineers (USACE), and Tennessee Valley Authority (TVA)] for any impacts to environmental features.

The Environmental Engineering Office is also responsible for ensuring that coverage under the National Pollutant Discharge Elimination System (NPDES) Construction Storm Water Permit has been obtained. This program requires that construction projects incorporate appropriate erosion prevention and sediment controls (EPSC) and the preparation of a Storm Water Pollution Prevention Plan (SWPPP).

Responsibilities

- Manage approximately 8 staff members.
- Work with internal and external staff to ensure projects meet letting schedules.
- Maintain expert knowledge of regulatory agency rules and regulations.
- Manage Consultant On-Call Contracts by monitoring workload and quality of submittals and reviewing and approving invoices.
- Monitor products for quality and consistency. Develop training or process changes to address issues or implement new regulatory rules or regulations.
- Hire and coordinate training of new staff.
- Ensure the professional development of staff and provide development opportunities and monitor progress of direct reports.

Qualifications

Active TN PE in Civil or Structural Engineering & three years of full-time experience managing and/or supervising civil engineering staff.

Special skills, knowledge or experience required or desired

- Professional attitude and attention to detail
- Excellent problem solving and verbal communication skills
- Strong organizational, task, time management, deductive reasoning and analytical skills with the ability to prioritize and multi-task with attention to meeting project schedules.
