

Photogrammetrist 2
Roadway Design Division-Aerial Survey Unit

Aerial Survey Photogrammetry Unit.

This position reports to the Photogrammetrist Supervisor 1 of the Aerial Survey unit of the Roadway Design Division. Under general supervision, responsibilities include:

- Use Photogrammetry software to perform tasks (MicroStation, Intergraph-ISSD, ISFC, ISDC, Ultramap)
- Mosaic QC and repair orthographic mosaics to support TDOT staff and the Tennessee Base Mapping Program
- Produce MicroStation based Aerial Mapping Corridor projects using 3D stereo compilation.
- Edit and perform Quality Assurance/Quality Control on peer and Consultant projects.

The office is located at TDOT Aerial Survey Office, 521 Olen Taylor Dr., Nashville, TN 37217, near the BNA airport. This is an Alternative Workspace Solutions position. This position will have some field time each month but will consist of day trips. Personnel will work from home a minimum of 2 days a week.
