

Who we are:

TDOT is a multimodal agency with responsibilities in aviation, public transit, waterways, railroads, and cycling and walking.

The Department of Transportation (TDOT) has close to 4,100 employees statewide with regional facilities in Knoxville, Chattanooga, Nashville, and Jackson. TDOT's headquarters is located in downtown Nashville.

What we do:

The Tennessee Department of Transportation (TDOT) provides citizens and travelers of Tennessee with one of the best transportation systems in the country.

Graduate Transportation Associate

Regional Project Development – Right-of-Way/Utilities Office

County Locations: Davidson, Knox

Compensation: \$4,240.00/month with BSCE & \$4,452.00/month with MSCE

Overview

TDOT is comprised of 4 regional locations, with each being responsible for project design in their respective locations. Major areas of project development responsibilities are design and project delivery, technical right-of-way and utilities, survey and environmental planning.

Other key responsibilities include management of project processes and status to ensure timely and fiscally responsible delivery of state highway transportation projects adhering to state and federal rules and regulations.

Responsibilities

The Right-of-Way/Utilities GTA's responsibilities include reviewing plans to identify utility conflicts, ensuring utility relocation plans adhere to standards, performing de-confliction activities utilizing 2D & 3D modeling technology and completing steps for final plan distributions to utility owners. The GTA will also use generate utility relocations plans and estimates, attend project review meetings and make recommendations for plan revisions. Additionally, the GTA may contract and review title reports, utilize cad software to check legal descriptions for projects requiring right-of-way acquisitions and excess land plats, and perform various right-of-way engineering duties.

Qualifications

A Bachelor's or Master's degree in Civil Engineering is required. Additionally, the GTA must pass the Fundamentals of Engineering (FE) Examination within eleven months of employment.

The ideal GTA candidate will have experience in technical software such as Microstation and Geopak, have ability to multitask and prioritize work load, and have strong written and verbal communication skills.

Applications must be submitted online in order to be considered for the position.
