

Who we are:

The Tennessee Department of Transportation provides citizens of Tennessee and travelers with one of the best transportation systems in the country. TDOT is a multimodal agency with responsibilities in building and maintaining roads, aviation, public transit, waterways, railroads, cycling and walking. Our involvement ranges from airport improvements to funding transit buses to planning for river ports.

The Department of Transportation has close to 4,100 employees statewide with regional facilities in Knoxville, Chattanooga, Nashville and Jackson. TDOT's headquarters is located in downtown Nashville.

What the Division does:

The Maintenance Division is responsible for the administration of several statewide programs to ensure the state roadway network and highway assets are maintained at an acceptable level of service by using cost effective measures. Specific responsibilities include: establishing standard operating maintenance procedures and policies, development of an annual roadway maintenance budget, emergency management planning, pavement management, interagency and city maintenance agreements, development of roadway maintenance contracts and facility maintenance.

Civil Engineering Manager I

Headquarters Maintenance – Pavement Office

Location: Nashville, TN

Compensation: \$6,908.00/month

Overview

The Tennessee Department of Transportation is currently hiring a full-time Civil Engineering Manager I to work in the Headquarters Maintenance Division's Pavement Office located in downtown Nashville, TN. This position will assist with the management and delivery of the state resurfacing program and related activities.

Responsibilities

- Assist with the management and delivery of a three-year highway resurfacing plan
- Work with various TDOT internal and external partners to ensure proper communication of upcoming projects and coordination with stakeholders such that all qualifying items are incorporated into projects on schedule
- Oversee development of approximately 200 resurfacing projects annually to ensure construction plans are developed on schedule for letting
- Supervise TDOT Pavement Management Office by providing support for pavement condition data collection, processing and reporting
- Work with TDOT Asset Management and other offices to ensure Federal pavement performance reporting requirements are met
- Coordinate with HQ Design, Materials and Tests and Construction to ensure quality pavement construction standards and provisions are being used and appropriately implemented into projects
- Assist with monitoring annual allocation of resurfacing funds such that funds are used efficiently, and region offices are within budget
- Statewide and occasional out-of-state travel is required.

Qualifications

- Bachelors or master's degree in civil engineering
- Three (3) years of full-time work managing and/or supervising professional and technical civil engineering staff
- Current Professional Engineering (PE) license
- Experience with pavement construction and design preferred
- Strong Written and verbal skills

To be considered for this position and for application instructions, please email TDOT.Careers@tn.gov.

Pursuant to the State of Tennessee's Workplace Discrimination and Harassment policy, the State is firmly committed to the principle of fair and equal employment opportunities for its citizens and strives to protect the rights and opportunities of all people to seek, obtain, and hold employment without being subjected to illegal discrimination and harassment in the workplace. It is the State's policy to provide an environment free of discrimination and harassment of an individual because of that person's race, color, national origin, age (40 and over), sex, pregnancy, religion, creed, disability, veteran's status or any other category protected by state and/or federal civil rights laws.
