## Environmental Analysis Office Overview

The Environmental Analysis Office is responsible for the preparation of environmental documents required for the National Environmental Policy Act (NEPA) for federally funded transportation projects in Tennessee.

This office compiles and collates information on various social, economic and environmental issues for each transportation project. This information includes a discussion of the purpose and need, social and economic structure of the affected community, land use, farmland, energy, conservation, floodplains, hazardous waste, visual concerns as well as the construction impacts.

This information, combined with the technical studies reports containing information about impacts to streams, wetlands and other ecological and water resources, historical and archaeological resources, air quality and noise, is presented in the environmental documents.

## POSITION SUMMARY

TDOT Environmental Division is currently seeking an advanced NEPA practitioner to join our NEPA Office. The ideal candidate for this position will apply their NEPA knowledge toward the assessment of transportation projects, review NEPA documents, and supervise staff preparing NEPA documents that includes providing guidance and expertise to assist them in the documentation process. This position will ensure projects within the assigned TDOT regions stay on schedule for project delivery.

## ESSENTIAL FUNCTIONS

### • **Project Management:**

Facilitate production and delivery of NEPA documentation with NEPA Project Coordinators, Local Public Agencies and NEPA on-call consulting groups.

### • **Develop/review NEPA documents for transportation projects:**

Categorical Exclusions and re-evaluations of various levels of environmental documents.

Analyze data related to NEPA documentation, review NEPA documents to ensure quality and correctness of documents in a timely manner, and supervise staff in the TDOT Environmental Studies series.

### • **Coordinate with internal and external stake holders:**

External agencies include, but are not limited to, the Federal Highway Administration (FHWA), and various Cities/Counties.

Internally coordinate with design professionals, technical resource experts, and the overall project team to identify opportunities for avoiding and minimizing potential impacts

Assist with implementing public involvement programs and outreach activities
