

TDOT Transportation Manager 1 (TM1)

Environmental Compliance Office (MS4 & Facilities Compliance Section) – 1 Position

The TDOT Transportation Manager 1 (TM1) is responsible for supervising staff located at multiple regional locations and implementing the statewide MS4 & Facilities Compliance Program to ensure compliance with the TDOT MS4 permit as well as all issued environmental permits and regulations for TDOT owned and operated facilities.

This position manages all aspects of the Statewide Environmental Services contract and all activities of the contracted party, including but not limited to the following:

- invoicing review and approval
- work assignments and scheduling, and review/approval of all deliverables
- providing professional, administrative and technical oversight of consultants, contractors and field staff, and technical assistance to the Environmental Division and programs
- conducting and participating in training, facility inspections, and meetings
- reviewing of documentation and participating in Departmental/Divisional committees to provide technical assistance and input.

This position assists the TM2 in reviewing and responding to regulatory agency notices that relate to the Department's MS4 permit and environmental programing. Candidates with a good working knowledge of and experience with MS4 permitting, facility environmental systems and environmental permit and regulation compliance are highly desired.
