MONTHLY NEWS

EPIC Academy Teams

Our EPIC Academy gives TDOT employees the chance to immerse themselves into a team environment, learn from each other and enhance their skills to confidently motivate and inspire others. At our most recent EPIC Academy, participants teamed up and honed in on their leadership skills to put together presentations on different topics such as “Becoming a Data Driven Organization,” “Effective Delegation and Decision-Making,” and “Employee Alignment on TDOT’s Mission and Values.” These projects, supported and vetted by TDOT senior leadership, allow participants to prepare their presentation based on their current cumulative skill sets, while incorporating lessons learned throughout their academy experience. Click [HERE](#) to hear from the teams about their projects.

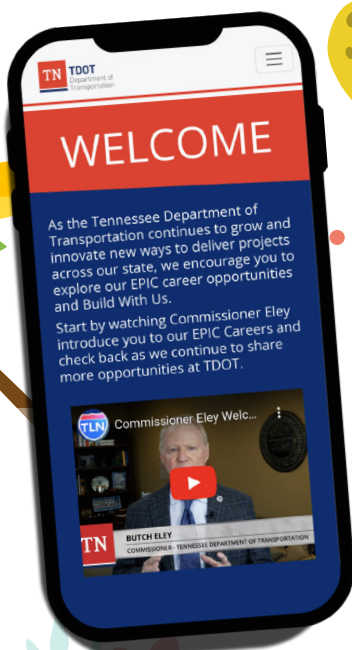

ACEC-TDOT Partnering Conference

The second annual ACEC-TDOT Partnering Conference was held in Murfreesboro earlier this month. During the conference, TDOT employees presented on PDN training, an overview of the progress we’ve made with EPIC and our updated organizational structure and department updates around alternative delivery and P3s. The last day of the conference included a panel discussion with our leadership and Commissioner Eley giving an inspiring update on “Where We are Going Together” as Tennessee and TDOT continue to grow. Those presentations were recorded, and can be viewed by clicking [HERE](#).

EPIC Careers Goes Mobile

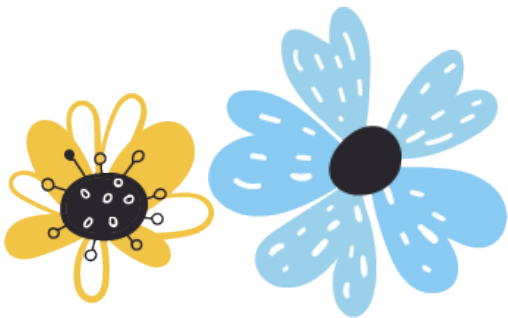

That’s right, you can now access EPIC Careers from your phone! We continue to strive to ensure our employees can access information how they choose. From your desktop, or your phone, all our latest organizational charts and new employee opportunities can be viewed on our EPIC Careers site by clicking [HERE](#).

EPIC Careers Update

During the month of June, we will be posting new job opportunities! We will also be updating our EPIC Careers website with new organization charts for Right-of-Way, Utilities and Environment. You can access the latest information regarding EPIC implementation through EPIC Careers as we continue to finalize org charts and post new positions.
