MONTHLY NEWS

New Job Classifications

With almost 4,000 employees at TDOT, it takes time to put together new job classifications. We're happy to share two new job series: the Engineering Technician and the Transportation Worker. Both are pending approval from the Department of Human Resources (DOHR). We anticipate approval in the new year so we can continue the EPIC implementation.

Check out our Engineering Technician job series [HERE](#).

Check out our Transportation Worker job series [HERE](#).

Matrix Organization

During the IPD Roadshow, one of the presentations focused on the new matrix organization. Many of the attendees found the information informative and helpful. After receiving this feedback, we put together a video of the presentation, so all employees could have the opportunity to view it. If you missed attending one of the IPD Roadshows or would like to hear the presentation again, [CLICK HERE](#). You can email TDOT.IPD@tn.gov to speak with a team member.

IPD News Update

TDOT has identified the legislative projects which we will focus our resources on moving forward. The schedules within PPRM have been updated based on the identified priorities. These legislative projects will be input into the new project team portal that is replacing PPRM. This new project team portal has been named: TDOT 360. A group of TDOT employees was trained on how to use TDOT 360 earlier this month, and they are in the final stages of testing the new portal. The legislative projects moving forward will be worked on within TDOT 360 beginning Q1 2023.

2nd EPIC Academy

Congratulations to our newest EPIC Academy graduating class! We have now successfully completed two full EPIC Academies. During a two-week span, a group of TDOT employees gained new leadership skills, obtained new resources to share with their peers, and learned new ways to problem-solve. Please help us in congratulating these graduates! This is just one of the new EPIC development opportunities TDOT is offering employees.
