MONTHLY NEWS

### TDOT Spotlight: Region 3 Environmental Tech Office

If you think playing in the mud, inspecting different types of insects, or trekking through the woods is fun, I'm sure you will enjoy this TDOT Spotlight video. In this video, we wanted to showcase some of our EPIC employees in the Region 3 Environmental Tech Office. Check out this behind-the-scenes spotlight showcasing the great work being done. Click [HERE](#).

### IPD Roadshow Recap

It's a wrap! The IPD team and some of our IPD champions went from region to region, making five stops along the way, to chat with TDOT employees about our Integrated Program Delivery initiative. These open house style events allowed employees to interact with our IPD team and champions to learn how TDOT is improving the way we work. We want to thank our IPD team and champions for the EPIC work they contributed to ensure these roadshows were a success. THANK YOU!

### EPIC News Update

We have submitted several Bureau of Engineering job classifications to the Department of Human Resources (DOHR), including the Transportation Worker series, Project Management series and the Engineering series. Once DOHR approves the job classifications, new salary bands will be identified to begin transitioning employees into the new classifications.

You better BOO-lieve it!

### Upcoming: All TDOT Staff Meeting

Don't forget to tune in on November 21 from 8:30 a.m. to 9:30 a.m. CT. Hear from Commissioner Eley as he recaps his first quarter at TDOT and provides an update on department initiatives.

We want to hear from YOU!

### EPIC Champion: John Evans

This month we are highlighting EPIC Champion John Evans. In this video, you will hear why John is excited about the enhancements EPIC and IPD are bringing to TDOT. Click [HERE](#) to watch!
