

Who we are:

TDOT is a multimodal agency with responsibilities in aviation, public transit, waterways, railroads, and cycling and walking. Our involvement ranges from airport improvements to funding transit buses to planning for river ports.

The Department of Transportation (TDOT) has close to 4,100 employees statewide with regional facilities in Knoxville, Chattanooga, Nashville, and Jackson. TDOT's headquarters is located in downtown Nashville.

What we do:

The Tennessee Department of Transportation (TDOT) provides citizens and travelers of Tennessee with one of the best transportation systems in the country.

Environmental Engineering Permits Manager

Location: Nashville, TN

Overview:

The Tennessee Department of Transportation (TDOT) is currently hiring a full-time Civil Engineering Manager 1 for our headquarters Environmental Engineering Office, Permit Section location in Davidson County.

The TDOT Environmental Engineering Office, Permits Section is responsible for reviewing TDOT project plans to ensure that the design complies with all federal and state environmental rules and regulations. The Section works with the project designers to refine the design to avoid and minimize impacts to environmental features (streams, reservoirs, springs, sinkholes, and wetlands). Using the altered plans, the Section applies for water quality permits from the environmental state and federal regulatory agencies [Tennessee Department of Environment and Conservation (TDEC), U.S. Army Corps of Engineers (USACE), and Tennessee Valley Authority (TVA)] for any impacts to environmental features.

The Environmental Engineering Office also oversees the program that obtains coverage under the National Pollutant Discharge Elimination System (NPDES) Construction Storm Water Permit from TDEC, for all TDOT projects that require one acre or more of land disturbance during construction.

Responsibilities:

- Manage approximately 8 direct and indirect staff members.
- Coordinate with internal and external stake holders including regulatory agencies and Contractors to ensure projects schedules are met.
- Maintain expert knowledge of regulatory agency rules and regulations.
- Manage Consultant On-Call Contracts

Qualifications: Active TN PE in Civil or Structural Engineering & four years of full-time experience managing and/or supervising civil engineering staff.

Special skills, knowledge or experience required or desired

- Professional attitude and attention to detail
- Excellent problem solving and verbal communication skills
- Strong organizational, task, time management, deductive reasoning and analytical skills with the ability to prioritize and multi-task with attention to meeting project schedules.

Applications must be submitted online to be considered for the position.

Interested applications should apply online at: <https://www.tn.gov/tdot/human-resources-home/tdot-careers.html>

Job Posting Title: Civil Engineering Manager 1
