GOVERNOR

MEMORANDUM

DATE: January 20th, 2023

TO: Jennifer Herstek, Director Division of Finance

From: Benjamin Price, Assistant Chief Engineer of Operations

Re: Maintenance Operations iPad Connectors

TDOT Maintenance Operations division needs to purchase two HDMI to Lightning connectors and two USB-C to Lightning connectors for culvert/underdrain training. These items are essential to demonstrate specific wifi enabled technology during training events. These wifi enabled technologies include the endoscope, VCam push/pull, and Environsight pole cameras. Because these cameras connect to inspectors iPhones/iPads over wifi, trainers cannot demonstrate these cameras live via a MS Teams screen share. Having these two connectors will allow trainers to connect and demonstrate these cameras during in-person and virtual training sessions. The estimated cost of these items is \$110.00. Please bill these charges to TX00063405.

For more information please contact Austin Holliman at 615-253-9811 by phone or Austin.Holliman@tn.gov by email.

Thank you,
